

IRON TITIE

CRYOBAGS

THE WORLDS MOST VERSATILE STORAGE BAG

Used daily across the globe by Government & military institutions, legal & professional firms, maritime & shipping companies, textile & clothing storage facilities, food storage & transportation, fishing & boating clubs and wet weather & recreational clubs just to name a few. Store important documents for life, including personal wills, passports, birth, death & marriage certificates, photos and priceless mementos. Keep such things as foodstuffs, clothing, plant material, circuitry and delicate electronic components dry. Seals in putrid odours such as waste products, septic materials, decomposing and rotting organic matter; for disposal or storage. Guaranteed 100% X-ray proof, light proof, water & moisture proof, smoke, fume, smell & odour proof.

DIRECTIONS

Simply insert goods & close the bag evenly. Run approximately 1 inch (2.5cms) of a very hot iron (Linen/cotton setting) slowly across the open end of the bag for a 100% seal. To reuse, cut off the sealed section and reseal with iron until the bag becomes too small for intended use.
